A horizontal number line is shown with endpoints labeled 0 and 10. A point labeled  $m$  is marked at the midpoint. The line is divided into five equal segments by tick marks at 0,  $m$ , and 10. The segments are shaded alternately: the first segment (0 to  $m$ ) is shaded gray, the second ( $m$  to the next tick) is unshaded, the third is shaded gray, the fourth is unshaded, and the fifth (to 10) is shaded gray.
